Specifications

TECHNICAL DATA · iDEAL BAS 060

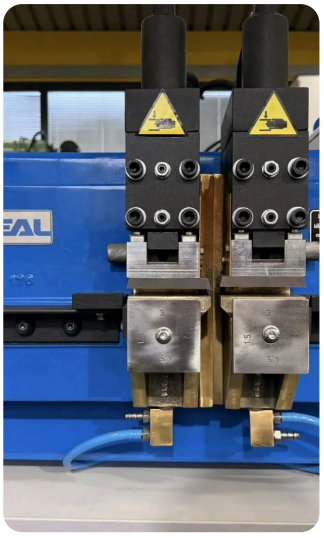

Make and model	iDEAL BAS 060
Nominal output (50% duty cycle)	8
Clamping force	250 bar
Max. upsetting force	0,5 Mp
Machine weight	250 kg
Control voltage	24 V
Main voltage	380 V
Clamping system	Hydralic
Integrated deburring unit	Annealing timer
Secondary voltage adjustment	6 steps
Wood saw bands	Up to 60 mm
Bimetal / tungsten-carbide saw bands	Up to 41 mm
Country of manufacture	Germany

The machine

DESCRIPTION & PHOTOS

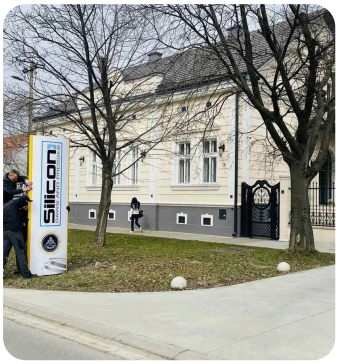

iDEAL BAS 060 is a resistance butt welding machine for band saw blades, made in Germany by iDEAL-Werk C.+E. Jungeblodt GmbH + Co., Lippstadt. Rated power 8 kVA at 50% duty cycle, primary voltage 380 V, 50/60 Hz, secondary voltage 2.5 – 4.2 V, maximum upsetting force 0,5 Mp. Hydraulic clamping (the "-11" version): both clamping jaws are operated hydraulically by foot switch, so the operator keeps both hands free to position the blade. The hydraulic power unit with clamping pressure gauge is mounted on the machine. Welding current is selected with the step switch, flashing speed and annealing time are set on the front control panel, with a Panasonic timer for the annealing cycle. A flexible work light is fitted above the welding zone. Clamping width 60 mm. The machine is used, in working condition and repainted. Electrical cabinet, hydraulics and controls are shown in the photographs.

Silicon Plus

SAWS & PRESSES · SINCE 1986

Used high-speed presses, coil handling and iDEAL band saw blade welders — inspected under power in our own workshop and shipped worldwide.
