DESCRIPTION & PHOTOS

Used iDEAL BAS120 resistance butt welding machine for joining band saw blades, built in 2003 (serial no. 229981). It welds the blade and then anneals the seam on the same machine, so it fits a saw shop, a blade service workshop or an in-house sawmill maintenance department. The machine has an iDEAL UniOp control, which gives repeatable weld settings. Welding power is 45 kVA and the upsetting force is 20 kN.
